ONE-STEP

Newer or maintained paint; noticeable improvement in gloss and clarity.

TWO-STEP

Moderate defects requiring compounding followed by refining for greater clarity.

THREE-STEP

Intensive defect correction and precision refining for the highest safe level of clarity and gloss.

* Final pricing and correction level are determined after inspection.

Deep scratches, rock chips, failing clear coat and defects beyond the clear coat cannot be safely removed by polishing. Wet sanding, touch-up paint, and rock-chip repair require separate assessment.

CERAMIC COATING PACKAGES

Choose the service that best fits your vehicle

2-YEAR CERAMIC COATING

sedan/coupe	small-mid size SUV	full size SUV/Truck
\$650	\$775	\$900

Paint enhancement and hydrophobic protection for up to two years with proper care and maintenance.

Coating System

- CARPRO CQUARTZ UK 3.0 ceramic coating

5-YEAR DUAL-LAYER CERAMIC COATING

sedan/coupe	small-mid size SUV	full size SUV/Truck
\$950	\$1100	\$1300

Enhance gloss, chemical resistance, slickness, and hydrophobic protection for up to five years with proper care and maintenance.

Coating System

- Gtechniq Crystal Serum Light ceramic base coating
- Gtechniq EXOv5 hydrophobic topcoat

BOTH CERAMIC PACKAGES INCLUDE

One-Step Paint Correction

A single-stage machine polish designed to improve gloss and clarity while reducing light swirl marks, haze, oxidation, and minor water-spot etching.

Complimentary First Maintenance Wash

Your first ceramic-safe exterior maintenance wash is included and may be scheduled approximately 30–45 days after installation.

Priority Maintenance Booking

Ceramic-coating customers receive priority access to future maintenance-wash appointments.

Personalized Coating-Care Guide

You will receive clear instructions on safe washing, drying, maintenance products, and how to preserve the coating's performance.

TWO-STEP PAINT CORRECTION UPGRADE STARTING AT

sedan/coupe	small-mid size SUV	full size SUV/Truck
+\$100	+\$150	+\$200

★

Three-step correction requires a customized quote. Ceramic coatings do not prevent rock chips, dents, deep scratches or all water spotting. Indoor installation and at least 12 hours of dry curing are required. Coating longevity is based on manufacturer ratings and may vary depending on vehicle use, storage, environmental exposure, washing methods, and maintenance. Any warranty coverage will be clearly provided in writing.

ELIGIBILITY REQUIREMENTS

Maintenance-plan pricing is available after an initial qualifying detail service.

To qualify, the vehicle must first receive one of the following:

Standard Detail

Premium Detail

VIP Detail

Or another approved reset/detail service

NOT INCLUDED IN MAINTENANCE PRICING:

- Excessive pet hair
- Heavy staining
- Excessive sand or trash
- Odors
- Hardened tree sap
- Heavy contamination
- Deep-cleaning or restorative work

★ Maintenance-plan pricing applies to the same vehicle while appointments remain on schedule. Missed, delayed, or heavily neglected vehicles may no longer qualify for maintenance pricing and may require regular service pricing instead.
